Subject: Recycling Program at Dutch Broadway School

Dear Mr. Martelli,

Thank you to you and your staff at Sanitary District No. 6 for again donating the brown boxes for our recycling program here at Dutch Broadway School in Elmont. We are entering our 7th year of this program with all proceeds going directly to the veteran organization, Building Homes for Heroes.

I appreciate how quickly the boxes were delivered to our school so now our 2019 program is officially underway.

We could not be this successful without your continued support, which you have been providing since the inception of the program in 2013. Our students take pride in collecting, sorting and bagging the 5 cent bottles and cans. We hope to have you and your team as our guests at our 8th annual Building Homes for Heroes walk-a-thon on May 28th, 2020 where we can formally recognize your role in making our program the achievement that it is.

Thank you again!

Sincerely,

Deb Bennett

Good morning and you are very welcome and glad we could help! The School District and the community are very fortunate to have such great people like yourself, the staff, students, and people like Marine veteran Bill Urianek who take the time to facilitate an event like this, and for such a great cause "Building Homes for Hero's". We would be happy to attend the future walk-a-thon event. If there is anything else that myself or the District can do please do not hesitate to call. Have a great day!

Thank you,
Nick Martelli
Sanitary District No. 6
